

Tool Wagon

Our tool wagon holds up to 100 toolholders depending on taper size. It has a removable tray which allows for reconfiguration to accommodate varying tapers. Tooling pots are constructed of a rugged plastic which protects the toolholder taper. The wagon is built with heavy gauge steel construction and has 5" diameter casters.

Second Tool shelf, Tool box and Tightening fixture shown in the photo on the right are sold separately.

Dimensions are approximately 36"H by 36"W by 20" D Assembly is required.
